

## **JOINT STATEMENT FROM CAMDEN MAYOR FRANK MORAN AND CONGRESSMAN DONALD NORCROSS**

**For Immediate Release**  
September 13, 2018

“Our combined efforts over the years with the residents of this great city, who have been willing, able and enthusiastic about job growth and employment, have yielded significant progress. Camden City is our home, and we’ve seen how the people of this great city have fought for good jobs that provide them the dignity of taking care of their families. For years, we’ve been working with partners at our community college, workforce investment board, county job training center and higher education institutions on programs to help prepare workers for the high-tech, high-intensity jobs that are becoming available, and we look forward to seeing more South Jersey residents taking advantage of new good-paying, family-sustaining jobs in Camden.”
